

## FROZEN PIZZA PACKAGING SOLUTIONS

WRAP / SHRINK / CASE PACK /  
PALLETIZE / UNITIZE

ProMach product brands Texwrap, Brenton & Orion are even better together, offering fully automatic Frozen Pizza Packaging Solutions to help customers see a reduction of labor while increasing efficiency and output.

With ProMach Frozen Pizza Packaging Solutions, you'll see how your packaging line can deliver more than you thought possible. With the combined offerings of ProMach's Texwrap, Brenton & Orion brands, our customers can automate wrapping, shrinking, loading, packing and palletizing their products, ensuring efficiencies and gaining consistency in their production.

Texwrap's pizza packaging expertise spans decades - working with pizza operations large and small. Ranging from regional producers needing medium speed capability, to the largest national brands requiring extreme high-speed custom solutions. Regardless of the speed required, Texwrap's heavy duty and reliable pizza handling and shrink packaging systems can improve efficiency, reduce labor costs, increase production and better utilize your operating space. The quality and durability of Texwrap equipment provides the lowest total cost of ownership available in the market today.

### FROZEN PIZZA SHRINK PACKAGING SOLUTIONS

**Pizza Wrapping Machines** — Texwrap has a full portfolio of shrink wrapping machines to meet each customer's requirements for speed and automation requirements. With the industry leading Texwrap Versa Seal side seal with 50% more roller to film control, and our orbital motion machines designed to achieve speeds up to 200 pizzas per minute, Texwrap has the technology and experience to configure the solution for each customer.

**Sanitary Product Handling** — Texwrap can configure frozen pizza handling from the freezer to the wrapper. With a full library of designs to consistently space pizzas, insert cardboard discs and top sheets, Texwrap's customers rely on our expertise to fully automate the shrink wrapping process. Each component is built with corrosion resistant materials to perform in either washdown or wipe down sanitary environments.

**Shrink Tunnels** — Texwrap's shrink tunnels are matched to each application requirement and can be configured with an optional "seams down" feature to pull shrink seams from top view.

# FROZEN PIZZA PACKAGING SOLUTIONS

Case packing machines from Brenton are reliable, efficient and easy to operate. Even for simple pick and place applications, automation is a great way to reduce repetitive motion injuries while helping increase overall production. Conventional case packers have speeds that are unmatched when packing a dedicated range of products in side load or wraparound cases. Brenton's case packers can handle a variety of pack configurations in the same machine including both wrapped and carton pizzas. Our expertise in the frozen pizza case packing market allows us to be a true partner in automation. With over 600 case packing installations, Brenton continues to be a leader in the case packing industry.

## M2000 CASE PACKING SOLUTIONS

The M2000 is Brenton's intermittent motion side load case packer. Its current design has a more modern aesthetic, shortened installation time, and is intuitive to operate. The M2000 also improves overall machine "up time" by making changeover straight forward and repeatable. Brenton's M2000 can be designed to handle both cartons and wrapped pizzas in the same machine as well as special requirements such as labels out club packs.

## RP1000 ROBOTIC PALLETIZER SERIES

The RP1000 also has a standard library of End of Arm Tools (EOAT) that can handle a variety of box styles and can provide options to pick and place pallets and sheets as well as the cases. Each system comes pre-programmed with identified pallet patterns (either column or interlocking), and an integrated pallet building software.

Orion offers the most comprehensive line of high-quality industrial stretch wrapping pallet packaging products in the industry, and continually sets the standard for durability, efficiency, flexibility, reliability and performance. Special emphasis is placed on our advanced film pre-stretch system to assure superior load containment and the most cost effective use of every inch of stretch film.

## FA FULLY AUTOMATIC STRETCH WRAPPER

The FA seamlessly integrates with Brenton's RP1000 palletizer to complete the pizza handling system. Loads are automatically sequenced through the powered infeed conveyor, turntable, and exit conveyors. During the wrap cycle the FA attaches the film tail at the cycle start, quickly wraps, then cuts and wipes the film tail to the load. The Orion FA Fully Automatic stretch wrapping system offers Category 3 Safety Rating as standard equipment.

Texwrap provides high-quality stand-alone machinery and systems to produce commercially attractive shrink wrapped and shrink bundled products that are protected for storage and shipping. We provide one of the most comprehensive lines of cost-effective high-speed shrink wrapping and bundling solutions for a variety of applications including L-bar sealers, continuous motion side sealers, intermittent motion side sealers, lap sealers, and vertical wrappers, as well as tunnels, conveyors, and infeeds. We also specialize in designing and building systems for e-commerce packaging, as well as custom systems to fit unique applications for a variety of shaped products.

Brenton is a global leader in designing and manufacturing integrated end of line packaging systems and machines, specializing in case packing and palletizing using both robotics and other automation. With over 30 years of experience in providing solutions for the consumer packaged goods, food, beverage, pharmaceutical and medical device industries, Brenton centers on creating collaborative, long-standing partnerships across a diverse customer base while remaining in front of the latest technologies and changing market conditions.

Make sure every load is safe and secure during its journey to market with Orion, the leader in heavy-duty industrial stretch wrapping technology. Orion is an industry-leading manufacturer of automatic and semi-automatic stretch wrapping equipment, including rotary turntables, rotary towers, and horizontal wrapping systems.

Texwrap, Brenton, and Orion are product brands of ProMach, a global leader in packaging line solutions. They help our packaging customers protect and grow the reputation and trust of their consumers. ProMach is performance, and the proof is in every package.
